

The new students have arrived! This afternoon we had 103 students descend on Cambridge from all corners of the world. They joined the four students who have remained with us from program 2, ambassadors for the incredible classes, activities and community that individuals can experience at Reach Cambridge. We look forward to finding out what this new group will bring. It has been exciting to see some of the new personalities that present already.

One of the great things about this program is that we have expanded our 'reach' and once again we have students spread across three colleges, Trinity Hall, Christ's and Downing. After a round of tours and dinners consumed across our various locations, we all came together in the Trinity Hall lecture theatre, and were introduced to Cambridge and each other. Of course, it is not a Reach summer program without a dash of healthy competition.

Our amazing Program Coordinators Zach and Tomini introduced Squad War, where students are split into two teams Fire and Ice. Over the next two weeks in addition to the delightful but challenging academic courses, our students will compete to win an overall mystery prize.

The students have a fun-filled but intense two weeks ahead of them, lessons will be learned and friendships will be formed. Stay tuned for more!
