

Hello fellow Reachers and parents! We are so excited to welcome you to Cambridge and show you all the amazing things that make this city the most perfect environment for your summer learning adventures! Some students, who had chosen to take a four-week course, remained here already knowing the ins and outs of the city. They woke up eager to begin taking their new classes, and ecstatic to meet the new students for our final program!

This morning we got the first look at our new students for our final program of the summer, as students travelling from all over the world arrived today. Our airport crew were up bright and early to meet everyone and take them safely to Cambridge. Once they arrived, they were given time to get settled into their beautiful college campuses that they will call home for the next 2 weeks, while also meeting one another. Friendships were forming instantly as they settled - its truly amazing to see how quickly our students can bond and form relationships that feel like they will last a lifetime. After students ate their first dinner all together in the stunning and historical College Dining Halls, we made our way to Trinity Hall to learn about all the adventures for the weeks to come! What a great start to the students' first day with us - we can't wait for classes to start tomorrow!
