

As we wrap up the 2024 summer at Reach Cambridge, we are thrilled to share the highlights of what has been an extraordinary season, marking our 20th anniversary in style. This summer was a celebration of two decades of academic excellence, cultural enrichment, and personal growth. We are immensely grateful for the amazing group of students and staff who made this season truly unforgettable. From captivating lectures to unforgettable excursions, the 2024 program was a testament to everything that makes Reach Cambridge special.

Academic Excellence & Enriching Workshops

With academic excellence at the heart of Reach Cambridge, this year, students had the opportunity to immerse themselves in a diverse range of subjects, from Medicine and Engineering to Psychology and Creative Writing. Whether honing their technical skills or exploring creative passions, every student found courses that inspired and challenged them.

A standout in our academic offerings was the Cambridge Union interdisciplinary debating day. Students engaged in thought-provoking discussions across various fields, honing their public speaking and critical thinking skills in an environment that encourages intellectual exploration.

Our enriching evening lectures and workshops added another layer to the academic experience. A favourite was the lecture on Emotional Intelligence, offering students essential skills in understanding and managing their emotions—vital for success in any field. The "Rising to the

Challenge" lecture was another highlight, encouraging students to embrace challenges as opportunities for growth and development. Evening lectures also included captivating sessions on African drumming and the cultural impact of music, providing a blend of learning and artistic expression.

Emma, a student from 2024, shares his enriching experience:

"The Cambridge Union debating day was one of the most intellectually stimulating experiences I've ever had. It pushed me to think critically and articulate my thoughts clearly in a supportive environment."

Cultural Excursions & Unforgettable Experience

No summer at Reach Cambridge is complete without our signature trips and excursions, and this year we curated some truly remarkable experiences. The visit to Warwick Castle was a journey back in time, where students witnessed a thrilling live re-enactment of the War of the Roses, the historic conflict between the houses of York and Lancaster.

Back in Cambridge, students enjoyed a quintessential local experience—punting on the River Cam. As they glided along the water, they were treated to stunning views of Cambridge's iconic colleges, enjoying a perfect mix of relaxation and cultural immersion.

Our trip to London was another highlight, offering students the unique opportunity to watch Shakespeare's *Much Ado About Nothing* at the historic Globe Theatre. For many, this was a dream come true, experiencing a Shakespearean play in the venue where his works originally came to life. Meanwhile, others opted for a walking tour of London's most iconic landmarks,

soaking in the vibrant history and culture of the city.

One of the most memorable evenings was the Ghost Tour around Cambridge. As the sun set, students ventured through the city's ancient lanes, listening to eerie stories and chilling legends. The tour revealed a darker, more mysterious side of Cambridge, leaving everyone with a thrill that lingered long after the tour ended.

Lucas, a student from 2024, shares his enriching experience:

"Punting on the River Cam was the highlight of my summer. It was such a relaxing way to experience the beauty of Cambridge while chatting with friends and making new memories."

Cambridge Life & International Experience

Life on campus was a perfect blend of academic rigor and relaxed, sunny afternoons. Students lived in beautiful, historic colleges, enjoying the picturesque surroundings and vibrant student life. The mix of cultures, with students representing numerous nationalities, created an enriching environment where lifelong friendships were formed.

The perfect balance of structured learning and social activities ensured that students not only gained academic knowledge but also developed a deeper appreciation for diverse perspectives and global cultures.
