

Bringing a Group to our Summer Programs

Our residential programs help prepare your students for the future. By bringing a group of students, you can enable them to experience international, high-class academia at a substantial discount.

We pride ourselves on ensuring that accompanying teachers also get a taste of all that Cambridge has to offer. Each of your students will attend their choice academic course alongside other international students - they don't have to all choose the same subject. We offer a wide range of subject courses in the Sciences, Humanities and Arts, ranging from Biotechnology and Physics to International History and English Literature.

Our teachers are researchers and academics from top universities, or practising professionals (such as lawyers, medics etc.) and many of them return to us year on year, thanks to excellent student feedback. For further details please visit our [courses page](#). Your group will live and learn in the beautiful University City of Cambridge, staying in college accommodation or our refurbished [central Cambridge venue](#) and enjoying the town's history, culture and leisure spots. As well as making the most of Cambridge, our programs also allow students and teachers to experience the best of the UK: each program includes an excursion to London as well as the opportunity to visit other places of cultural and historical significance such as Stratford-upon-Avon and Oxford.

The health and safety of all of our students is the number one priority at Reach Cambridge. Our dedicated senior staff team and supervisors live on-site, working closely with the accompanying teachers to ensure the students are settled in, and always on-hand to answer any queries that students or teachers may have. We have vast experience of hosting school groups from all over the world on our programs – from Canada to Indonesia, and India to Singapore. Wherever your school is based, our programs will provide an unforgettable university experience. To receive further details or to book your group onto one of our programs, please [email us](#).
